Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. For this project, the brainstorming is focused on improving the car rental request process.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Selected problem statement: Car rental requests need a structured process to collect rental details, obtain approval, and route approved requests for fulfillment.

Step-2: Brainstorm, Idea Listing and Grouping

Request submission

- Create a Service Catalog item for the car rental request.
- Collect Requested Date, Pickup Location, Drop Location, Duration, Car Type, and Reason.

Approval

- Add an approval step for the Requested Item.
- Continue the fulfillment process when the request is approved.

Fulfillment

- Create a Catalog Task for an approved request.
- Assign the task to the configured fulfillment/ITSM group.

Communication

- Send an email notification as part of the flow.
- Keep the requester informed about the request process.

Exception handling

- Use a Business Rule to create an Incident when the configured unavailable condition is reached.

Step-3: Idea Prioritization

The ideas are considered using the Importance and Feasibility dimensions shown in the template.

Idea	Importance	Feasibility
Service Catalog request form	High	High
Approval automation	High	High
Catalog Task creation	High	High
Assignment to fulfillment group	High	High
Email notification	Medium	High
Business Rule for unavailable condition	Medium	Medium
